

Our Plans for the Bursary Appeal

What are we doing?

We are raising funds for Bursaries, in order that we may bring pupils into Westholme with no financial barriers. The Governors have always offered partial assistance where necessary but never at the level of 100%. We are now intending to offer full bursary places where appropriate from September 2007.

Why are we doing it?

- This new initiative allows us to champion the values of diversity and inclusivity that are so important to the life of the school.
- All children will benefit from working and playing with students who are committed to seizing every opportunity available to them.
- The wider benefit extends to the economic community as these highly motivated girls end their school career; fully prepared to contribute at the highest level to society.

Please help

Westholme School has very humble origins. Emily Singleton started our school in 1923 with just three pupils who wanted to learn with her in the simple Wesleyan Chapel on Preston New Road. This unique spirit prevails today, we remain a school where pupils want to come to learn, to thrive, to succeed.

It is our ambition to make this a reality for every girl who wishes to experience Westholme regardless of financial means.

We can change young lives, with your help.
